

Habitat for Humanity announces Garden Tour Funds raised

August 12, 2023

Habitat for Humanity in Crescent City announced some 250 visitors toured the five garden homes two weeks ago and raised over \$5000.

Chris York of Habitat said this event was the first garden tour since the onset of the Covid pandemic. The group was heartened to see the community coming together to support Habitat.

Organizers of the event said the Garden Tour would not have been possible without the amazing work of Habitat gardeners and their willingness to open their hearts and gardens to the community.

Habitat for Humanity is currently undertaking the construction of its sixth home in Del Norte county.
