Where Do You Go for Protection

By Donna DeWolf November 25, 2026

This week I want to address the subject of who is our protector. Where is it that you turn when you need help or protection? We who are followers of Jesus Christ have an ever present help in times of trouble. We can turn to Him for guidance, for direction and for protection.

He has provided tools for us to be able to withstand the flaming darts of the enemy. He has given us his armor that we can be protected as we fight our battles. The Word of God tells us that we do not fight against flesh and blood. We fight against principalities, powers, the rulers of darkness of this age, against the spiritual host of wickedness.

We may think we have a fight with a person, a government, a way of life, a difference of opinion. But in reality, it is not the people with have a problem with. It is the spirit behind them. See a lot of times we do not understand the reality of the situations we face on a daily basis.

A government pushing an agenda, a neighbor throwing beer cans over our fence, or even family members who do not have our best interest at heart. All these examples can appear to be coming through people, but we must open our eyes and see the real culprit is not the person, it is the evil around us.

It is time for us as believers to put on the armor of God that is found in Ephesians chapter 6. It is time for us to stop turning a blind eye to the darkness around us. It is time for us to pray without ceasing. There are people who desperately need our prayers. There are people who desperately need God’s protection.

The enemy has had his way in our community long enough. It is time we get on our armor, get out into our prayer closet and get to fighting.

My prayer this week is for those who cannot fight. Let’s all come together in agreement for the elderly. Those in our community who cannot stand up for themselves. The elderly have contributed a lot to society for a lot of years. They have worked, labored for their families, for our communities. Now they are frail and can longer be in control of their living conditions. They need our prayers. They need the darkness to flee from them.

Then while we are in prayer let’s all remember to pray for the many other needs that we and others may have. Remember we have not because we ask not.
