

The 6 p.m.Report: COVID-19 in Del Norte and Curry counties

July 30, 2020

Our 6 p.m. report continues, with the latest data we could round up for July 30, 2020. Our last report was Wednesday, July 28.

The Short Report

This report includes information available as of about 4 p.m. on July 30. Not all data is available in the same form from various jurisdictions.

Del Norte County

Here's a new report of interest to Del Norte. It shows by California county the average number of tests per day (per 100,000 population) (7 day average with a 7 day lag) — sorry for all the caveats, we didn't make this up!

For that metric, Del Norte is at 140.5 tests.

No new positive cases reported to Public Health today. All new active cases have completed their self-isolation and have recovered.

New confirmed COVID-19 cases: 0

Current Hospitalizations: 0

Total tests: 4014

Total confirmed cases: 88

Total active cases: 0

Total inactive cases: 88

Total hospitalizations: 2

Total deaths: 0

Transmission

Contact to a Known Case: 49 cases (56%)

Travel-Acquired: 2 cases (2%)

Community Transmission: 37 cases (42%)

Under Investigation: 0 cases (0%)

Gender

Males: 50 cases (57%)

Females: 38 cases (43%)

Age Range

0-17 years: 18 cases (20%)

18-49 years: 51 cases (58%)

50-64 years: 15 cases (17%)

65+ years: 4 cases (5%)

Mean Age: 35

Other data:

Symptomatic Cases: 44 cases (51%)

Asymptomatic Cases: 43 cases (49%)

Passive Case Finding: 45 cases (51%)

Active Case Finding: 43 cases (49%)

The county's latest data is available [HERE](#).

Curry County

Curry County — Curry County Public Health's latest update is the same as reported yesterday, showing 5 active cases, 9 recovered cases, 987 completed tests, 958 negative cases and zero deaths.

Curry County Public Health has not responded to requests for information about the number of positive staff cases from Pelican Bay State Prison who are Curry County residents. Latest info here: <https://currypublichealth.com/>

Pelican Bay State Prison

As of about 4 p.m. on July 30, the CDCR report for Pelican Bay continued to show no inmate cases; as reported yesterday, inmates have been tested and results apparently have not been received.

CDCR's report this afternoon shows 26 staff with positive cases and 18 returned to work. Apparently we misunderstood these numbers yesterday and 26 is the total who tested positive, 18 of whom have returned to work.

Results of inmate testing will be reported to Del Norte public health officials.

CDCR's suspension of intake from county jails has been extended to Aug. 9. The department also announced coordination with the Federal Receiver to identify 100 vacant beds at each institution that can be used for immediate isolation and this process is underway at PBSP.

The prison continues to monitor staff and inmates and reports of testing are provided to the appropriate public health agencies. The California Department of Corrections and Rehabilitation updates its website regularly to show activity of the virus; there will be a lag between the website reporting and that reported by local health agencies, so numbers may not always match. For information go [HERE](#).

California

129,324 new cases (last 14 days)

322.3 per 100K

485,502 total cases

1,564 new deaths (last 14 days)

3.8 per 100K

8,909 total deaths

1,718,332 tests reported (last 14 days)

7.5% test positivity (up a tenth of a percent from yesterday)

3.1 daily per 1,000 residents

7,633,840 total tests reported

Note: Some people, particularly medical personnel, have been tested multiple times.

There are now 38 counties on California's "Watch List," created to track jurisdictions with higher incidence of the virus and other factors. If a county is on the "Watch List" for three or more days, additional restrictions are put in place. The most northern counties on the list are Sonoma, Glenn and Butte.

California County Watch List <https://covid19.ca.gov/roadmap-counties/>

Oregon

COVID-19 has claimed 5 more lives in Oregon, raising the state's death toll to 316, the Oregon Health Authority reported at 12:01 a.m. today.

Oregon Health Authority reported 416 new confirmed and presumptive cases of COVID-19 as of 12:01 a.m. today bringing the state total to 18,131.

The new cases reported today are in the following counties: Baker (3), Benton (7), Clackamas (22), Clatsop (2), Columbia (3), Coos (4), Crook (2), Deschutes (15), Douglas (2), Hood River (5), Jackson (10), Jefferson (12), Klamath (1), Lake (1), Lane (10), Lincoln (2), Linn (4), Malheur (18), Marion (38), Morrow (9), Multnomah (61), Polk (7), Umatilla (101), Union (1), Wasco (2), Washington (63), and Yamhill (11).

Oregon now has a weekly report showing daily increase and lower positivity for COVID-19. Positivity in this respect means the percentage of people who test positive for the virus of those tested overall.

The Weekly Report, shows that during the week of July 20–26, 42,452 people were tested for COVID-19 in Oregon, and 5.1 percent of them had a positive result, down from 6.6 percent last week. (For comparison, California's latest positivity, shown elsewhere in this report, is 7.5%).

Oregon updates are available [here](#).

United States

4,405,932 total cases, 65,935 new cases since yesterday
150,283 total deaths; 1,417 new deaths since yesterday

[More info here.](#)

Worldwide

16,523,815 confirmed cases
655,112 confirmed deaths

[More info here.](#)

Great for those who want more data!

We've discovered two additional information resources we think will be helpful to people in our area.

Curry County, Oregon: This website provides a way to look at each county in Oregon and get the latest published date.

Del Norte County, California: This website provides a way to look at current data in California, down to the county level, as well as forecasts and scenarios based on modeling.

Because these websites seem to provide a great deal of detail with more precision than we can manage, we are discontinuing our percentage calculations at this time. Data on these websites may vary a bit from local data due to reporting time gaps.

About Our Report

Our late afternoon report, Monday through Friday, is part of our effort to provide the communities served by the Curry Coastal Pilot and Del Norte Triplicate with the latest relevant information about COVID-19.

Although the communities we serve are in two different counties and two different states, residents frequently travel to neighboring communities for work and shopping. The virus is not contained by city, county or state boundaries. And we all need to know the rules at play in the jurisdictions we might visit.

Unless there is urgent information that must be shared, we plan to make just one post daily with the best information we can gather — and compile what is relevant for our Friday print editions.

If you have a suggestion for information you would like to see in this daily (Monday through Friday) report, please send an email to: piloteditor@countrymedia.net.

Unfortunately, all jurisdictions do not report information in the same format, so some information has not been provided for us to share:

About COVID-19

Basic information about COVID-19 is available at the Centers for Disease Control website.

What you need to know:

Anyone can have mild to severe symptoms.

Older adults and people who have severe underlying medical conditions like heart or lung disease or diabetes seem to be at higher risk for developing more serious complications from COVID-19 illness.

Symptoms may appear 2-14 days after exposure to the virus. People with these symptoms may have COVID-19:

Fever or chill

Cough

Shortness of breath or difficulty breathing

Fatigue

Muscle or body aches

Headache

New loss of taste or smell

Sore throat

Congestion or runny nose

Nausea or vomiting

Diarrhea

This website has a handy self-checker questionnaire.

Testing

Del Norte County provides a website here with information about testing, which includes some options for Oregon residents, as well as California residents. As of today, the information may seem a little dated, but it's a good start if you would like to be tested.

CVS Pharmacy in Crescent City also provides testing, appointment required, for California residents only. Information here.

In Curry County, check this website for testing information. Also the State of Oregon has a new website to assist you in finding testing (does not include California locations). <https://govstatus.egov.com/or-oha-covid-19-testing>
