

Abatement on A Street to be finished soon

July 25, 2023

The condemned eyesore medical office building at 200 A St will soon be a welcomed vacant lot. Court Receiver Griswold law firm reports the concrete slab foundation and walkways will be removed, effective immediately and all overgrown weeds will be removed.

The final process is expected to be completed by mid-August, according to Jamie Eberhardt of Griswold Law firm. This long, arduous journey to remove this nuisance property building will soon be complete.

Congratulations and thanks are directed to the City, concerned neighbors and appreciation to court receiver Richardson Griswold law firm for a job well done.

No plans have been announced for the future development of the soon-to-be vacant lot next to the Ocean Front Lodge.
