

Comments still being accepted on Last Chance Grade

December 14, 2021

Members of the public are still able to ask questions and submit comments on the Last Chance Grade Project, and public hearings and meetings will continue to be held well into 2025.

On Dec. 6, comments regarding the Environmental Impact Report and Environmental Impact Statement were due. However, the Last Chance Grade website is still able to receive comments regarding the project, and a series of public meetings will be held after Caltrans District 1 completes its environmental studies draft reports, as well as prior to approving the final documents.
