

Dangerous beach conditions through early Tuesday morning

December 22, 2024

Dangerous Beach Conditions

All beaches of Douglas, Coos & Curry Counties

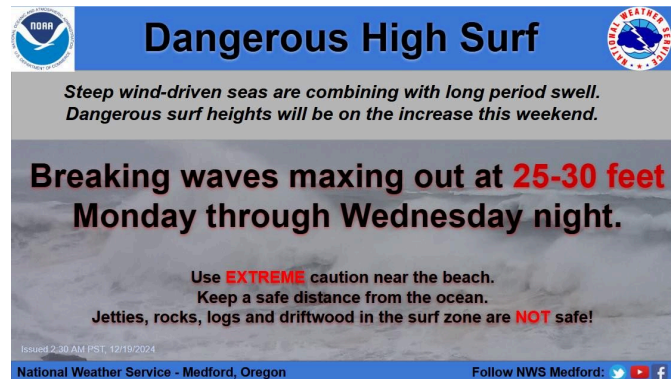

- A High Surf Warning Sunday night through early Tuesday morning.
- Dangerously large breaking waves of 28 to 32 ft.
- Dangerous beach conditions:
 - Waves will inundate beaches, push large logs up the beach and surge into normally dry areas.
 - Infrastructure damage and significant beach erosion can be expected.

Actions to take...

Exercise extreme caution if you risk going to area beaches. *It is strongly advised to stay away from beaches during this storm.*

Dangerous High Surf

Steep wind-driven seas are combining with long period swell. Dangerous surf heights will be on the increase this weekend.

Breaking waves maxing out at 25-30 feet Monday through Wednesday night.

Use **EXTREME** caution near the beach.
Keep a safe distance from the ocean.
Jetties, rocks, logs and driftwood in the surf zone are **NOT** safe!

Issued 2:30 AM PST, 12/19/2024

National Weather Service - Medford, Oregon Follow NWS Medford:   

Dangerous beach conditions are expected late tonight through early Tuesday morning as a strong front impacts the region.

Very high and chaotic seas will result in dangerously large breaking waves of 28 to 32 ft along area beaches.

Waves will inundate beaches, surge into normally dry areas, and push large logs up the beaches.

Infrastructure damage and significant beach erosion can be expected.

Exercise extreme caution if you risk going to area beaches. It is strongly advised to stay away from beaches during this storm.
