

Caltrans closes N. Fred Haight Drive at Highway 101 for bridge, culvert work

October 1, 2020

Caltrans is alerting motorists who take N. Fred Haight Drive to and from U.S. Highway 101 will need to use an alternate route until Spring 2021.

The closure is to remove a reinforced concrete box culvert and construct the all-new Dominie Creek Bridge, along with creek restoration work.

Caltrans said Northbound Highway 101 to westbound N. Fred Haight Drive and eastbound N. Fred Haight Drive to northbound and southbound Highway 101 are closed as of Oct. 1.

A temporary traffic signal will be activated on Oct. 7 from north of Rowdy Creek Road to N. Fred Haight Drive. Traffic will be restricted to one lane through the signal. Rowdy Creek Road will remain open.

Motorists are encouraged to anticipate an extra five minutes in their routes for the detour.

“We’d like to thank you in advance for your patience as this work will improve drainage during inclement weather conditions and benefit fish passage, among other upsides,” said Myles Cochran, Caltrans

spokesman.
