

Graffiti Corner: Hard to Reach Places Impact Neighborhoods

December 2, 2024

Vandals continue to inflict gang scrawl in the City. This long-standing vandalism was caught by intrepid photo journalist Mike Cuthbertson AKA “Gasquet Mike,” When he was operating his drone atop the Frontier Communications building on H St.

Vandals apparently scaled the roof and defaced a large section which was out of sight to most observers but not Mike.

Gasquet Mike contacted The Triplicate, jPeg in hand. Nice work, Gasquet Mike.

The graffiti has been duly noted and the City has been contacted and will contact Frontier management to expediently remove the scrawl.

If you see something, say something. triplicatenews@countrymedia.net
