

Huffman Hosts Town Hall

March 9, 2025

“Abandonment of the Rule of Law; Bizarre, Protect Non-Government Organizations (NGOs) and Public Radio, Trump will make it hard for some folks to vote, Truly Damaging our Country, Devastating cuts to Medicare and Medicaid, We will fight to the end.”

All the above (and much more) were exclaimed by the 2nd District, Democrat Congressman, Jared Huffman, Monday evening.

Huffman predicts a dark future during the Trump Presidency.

Callers were urged to dial up the 833 number and speak directly with the Representative from Marin County. 23 actually reached the airwaves, all with one thing in common: Absolute vitriol for Trump 47 and DOGE

advocate Elon Musk.

Did anyone disagree with the Sky is Falling doomsday message delivered by Rep. Huffman? NO! The fear was palpable.

The unidentified moderator for the congressman incorrectly identified one caller from ARCADIA. Huffman expediently corrected the moderator with A-R-C-A-T-A, a 715 mile detour from the Southland. The moderator similarly identified two other callers from San-Raf-EE-el (San Rafael). The second District congressman did not proffer a correction to the pronunciation of his home town.

Huffman delivered the sobering news his party had little power to change the status quo dynamic of the minority party.

Questions ranged from, “Am I going to lose my social security (Amy) to losing my health care (Ellen from Eureka) to not paying my taxes as a protest to Trump is shredding The Constitution, to Carolyn claiming old folks will perish when Meals on Wheels is removed (no proof of this allegation.)

Rep. Huffman handled them all with aplomb, delicate compassion, and a forewarning that the next major threshold is March 14 when a vote for a Continuing Resolution will be needed to raise the Debt ceiling, to exceed \$37 trillion. Huffman did not mention the deficit digs an additional 1,000,000,000,000,000 (\$1 trillion) every 100 days.)

Huffman alleged the President and underling DOGEist Elon Musk are implementing huge cuts in preparation for \$4.5 trillion in tax cuts for billionaires.

There were no callers-in from Del Norte who reached the Congressman for this Town Hall. Huffman has never won the popular vote in Del Norte since he’s run for Congress in 2012.

The Triplicate listened in for the entire one hour Town Hall and did not note a single instance where Rep. Huffman offered to work across the aisle with the President, ignoring both his 2017 and 2025 Inaugurations.
