

Students encouraged to apply for scholarships

January 26, 2022

January 14 marks the start scholarship season, and students are encouraged to apply for dozens of scholarships offered by the Humboldt Area and Wild Rivers Community Foundation.

This year, over 160 scholarships from local schools, businesses, clubs, organizations and individuals are available. Scholarship funds reflect new and established donors, alike: many funds are over 30 years old, while others are as new as a few weeks old. Approximately \$750,000 will be awarded through these scholarships. Current scholarship listings and the Foundation's universal application for scholarships can be found online at [ScholarshipFinder.org](https://www.scholarshipfinder.org).

Scholarships support students throughout the 2022-2023 academic school year and are offered to students pursuing any form of postsecondary education, including: associate degrees; bachelor's degrees; master's degrees; and degrees and certifications from a career, vocational or technical school. While most scholarships are primarily intended for and offered to students in the Humboldt Area Foundation & Wild Rivers Community Foundation service regions, some scholarships are available to national or global applicants.

"We're thrilled to launch the Humboldt Area Foundation & Wild Rivers Community Foundation Universal Scholarship Application for the 2022 scholarship cycle! The Universal Application is an easy and simple way to connect current and prospective students to local funding opportunities, through a single application process. Many of our scholarship funds have been in existence for over 30 years, providing long-term

support to our region's youth. It is a privilege to continue providing support for the success of thriving youth and families in the service region," says Sydney Morrone, Grants & Scholarships manager for the Humboldt Area Foundation & Wild Rivers Community Foundation.
