

Front Street closures will begin Monday, July 20

July 16, 2020

The city received a \$4 million-dollar Community Development Block Grant to alleviate flooding on C Street and Front Street. As part of this grant, Front Street from B Street to G Street will be closed for several months due to construction of a new storm drain.

Front Street closures will begin Monday, July 20.

All work is scheduled to be complete in November.

There will be detour signs directing traffic to businesses along Front Street during the street closure. Typical work hours will be 7:30 a.m. to 5:30 p.m. Streets will be closed outside of these working hours also

Please call the Crescent City Public Works Department if you have questions or need additional assistance at 707-464-9506.

The city is willing to place signs for businesses on barricades around the project site to help direct the public to your place of business.
