

Del Norte Public Health Issues Covid 19 Alert

July 24, 2024

The Del Norte Public Health Department has issued a warning to the public to be on the alert for current variants of Covid 19 which are on the rise in several regions in California. Recently these variants have been presenting with diarrhea, upset stomach and muscle aches in addition to the Covid 19 symptoms.

If you are experiencing any symptoms, please get tested. Home tests are available and are a convenient and efficient way to test your status. Vaccines are still available and remain a safe and effective way to prevent bad outcomes from Covid 19.
