

Power to be restored by 11 a.m.

February 3, 2020

Around 980 Crescent City residents are without power due to a downed line on Washington Boulevard.

Pacific Power has dispatched a crew to investigate and repair the line, and they predict power will be restored at 11 a.m. They encourage anyone who does not receive power by 11 to call 888-221-7070.

Pacific Power would also like to remind people to treat all downed wires as live or dangerous.
