

## Have you seen me?

October 3, 2024

Family member Shawna Hyatt tells *The Triplicate* Eric, age 47, arrived at Shelly Creek Campground Thursday, Sept. 12 about 7pm. Eric was camped at the first campsite on the left, on Shelly Creek with his two dogs and cat.

According to his family, Eric may have travelled into Hiouchi to the store, Obrien Market or into Crescent City, based on his cell phone records and cell Tower pings. Eric had been in daily contact with multiple people, friends and family up until the evening of Monday, Sept. 16 when his phone records abruptly stopped just before 8PM.

He left his animals, cell phone, keys, driver's license, cigarettes and vehicle in his camp. Shawna continues, “At this time we have no known whereabouts of his location; he may be in a mental health crisis and it is possible he has become disoriented and possibly been wandering about somewhere.” There have been multiple sightings of him in Crescent City and Grants Pass.

Eric is 5’4 with a slight build, perhaps about 120 lbs.

Sheriff Garrett Scott reports Search and Rescue continues to search the area with canine and drone service but laments the missing camper may have left the primary area of search. The Sheriff did not rule out the possibility Eric Campbell may have met foul play.
