

New Elk Valley Casino officially opens

April 21, 2022

The new Elk Valley Casino opens today in a magnificent setting between the grazing meadows of Roosevelt elk and the majestic mountains and forest, all overlooking the panoramic view of the beautiful Pacific Ocean and South Beach.

The 36,000 square-foot casino is bigger by half than the older casino it replaced on Howland Hill Road, two miles away.

The new casino features 300 slot machines, table games including blackjack and Spanish 21. A separate poker room will offer Texas Hold'em and poker tournaments. Bingo will be played in the full event center.

Players will continue to receive all points and benefits earned at the former casino location.

The large events center will feature bigger touring acts. A more intimate entertainment setting is featured on a smaller stage in the Warrior Bar and Grill.

Favorite menu items from the former casino location, plus an all-new, upscale-rustic menu is offered. The Perks! Gift Shop offers coffee, pastries, tobacco, gifts and sundries.

Elk Valley Casino features a state-of-the-art fresh air ventilation system equipped with the Synexis Bio-Defense System to combat viruses, bacteria and smoke. Air within the building is not recycled.

Guests will appreciate the enormous parking lot with plenty of ADA accessible spaces and EV charging stations.

Large parking spaces are available for those traveling in recreational vehicles.

The Elk Valley Casino is located south of Crescent City off Highway 101 as the highway begins its climb toward Last Chance Grade.

Turn east at Humboldt-Enderts Beach Road intersection, continue to the traffic circle, turn right through the gates and up the hill. Access is also available off Highway 101 at Sand Mine Road.
