
School district hosts remote learning survey

June 3, 2020

The Del Norte Unified School District is partnering with BrightBytes to learn more about how the community is responding to teaching and learning remotely. School officials want to hear how parents and their children are adjusting during this unprecedented time and learn how the district can better support them.

The administration will be collecting survey responses from June 3-10. The DNUSD is asking students in grades 3-12, as well as all teachers, principals and parents/guardians to provide input on this online survey at <https://bbyt.es/start/RX7VV8RCQ>. Once there, select the Parent survey and then select your school from the drop-down menu.

The survey should take about 5-10 minutes to complete. Parents with children in more than one school are asked to complete the survey for each child.

If you have questions or run into any difficulty, contact Michael Hawkins at mhawkins@dnusd.org.
