

Alas: Front Street Opens Segment, if Just Temporarily

November 23, 2024

Be patient and all good things will come. Another leg of Front Street has been opened. The segment from I St to K Street is now open, after a four month hiatus, closing iconic Front Street.

The opening of this short segment is temporary as the segment from K Street to 101 South has yet to be refurbished and awaits implementation with City Council approval of the Cal Trans Clean California entry signage at the 101 and east of K Street Welcome to Crescent City portal signs, to be completed in 2026.

The last leg of Front St., from K to 101 will be completed by mid-year 2025.

City Manager Eric Wier thanks all the partners, the Council and the public for its stellar efforts and patience. "All good things will come," extolled the City Manager.
