

Letter: Vote for Masten

October 28, 2022

I am urging my fellow 5th District residents to vote for Susan Masten for Supervisor.

Supervisor Masten has a thoughtful demeanor, and her comments are reasoned and constructive. She meets with residents throughout the 5th District and the county to discuss their thoughts around specific issues of concern to them. She listens to their input. She takes time to understand the factors underlying our most pressing issues and is genuinely committed to solving them. She believes in government transparency and fiscal responsibility.

Sue has shown dedication to service throughout her professional life. She has experience serving with many levels of government and as a private business owner. In working with her, I have found her to be ethical, honest, hardworking and positive.

Political party affiliation of candidates for supervisor does not appear on our ballots because their responsibility is to our local community, our priorities and constructive solutions. Supervisor Masten is focused on both the 5th District and our entire county. We grow and thrive together.

Please elect Supervisor Susan Masten to the 5th District seat!

Carol Mathews
