

Letter: Ominous force behind political prosecutions

April 12, 2022

This is not the first time that the City of Crescent City in Del Norte County, California, has sought criminal charges against relatively innocent people.

Alex Campbell, Interim Mayor, was convicted of a similar wrongdoing in 2020. Neither of these individuals were attempting to vote twice. Both are highly professional, civic minded people who have been brutally taken down by some ominous political force that seems to serve no purpose at all.

Not wishing to drag family and friends through the muck and mire of such smarmy doings, many simply acquiesce and that is simply a shame.

Linda Stevens
