

Letter: Stealing the Klamath

July 27, 2023

Orange and LA Counties have redirected and basically stole the Klamath River, flash floods my ass there has NEVER been flooding in LA or Orange Co...until now, right after the first of 4 dams (which now there is 3) dynamite goes along way during the fourths firework noise,..hardly anybody caught on.. but some did,..... Gotta push on your hands now! Southern Cal. How dare you . They say the Klamath will be dried up by next summer, we shall see Redwood Empire Wake Up , they have some explaining to do.
