

Letter: I know I can win

May 3, 2024

Contrary to Kevin Hendrick's, Democrat Chair for Del Norte County, statement that, "I don't think I can win", I know I can. This is not a political race between democrats and republicans; it is about our declining quality of life and the opportunity to have the liberty to achieve what we are striving for. We, the people of California, are tired of the mandates put in place that regulate everything we do, say, or believe. We are losing our way of life from the fishing and timber industries to small businesses, hotels, and restaurants because of the "unintended consequences" of our single party legislation. The democrats own the problems because they are the only ones who can get legislation passed and, unfortunately, it hurts those who they are trying to help the most. I am running because we have seen billions of dollars thrown at homelessness, education, housing, and environmental pet projects that destroy jobs and the environment. What are the results: increased homelessness by 35%, students who can't read or do math at grade level, higher crime rates because the democrats in power don't believe in holding people accountable for their actions, businesses failing because of over regulation and increased taxes. State regulations are forcing insurance companies out of the state, increasing utility costs and food prices because of the way the state regulates energy. Yes Mr. Hendrick, I believe that I can win because people want to build a better quality of life by raising our educational standards, making our communities a better, safer place to live, and lowering the cost of living.

I want to thank the voters of Del Norte County for the support that I received during the District 2, State Assembly Primary. Through your efforts I was able to receive the most votes of all the six candidates that

were running. My opponents will say that my getting in the General Election was assured since all the others were Democrats. They didn't, however, anticipate that I would be first place winner and receive up to 18% crossover vote. We did well in the primary because of the work, service, and donations that you contributed to. My opponents spent 3.2 million dollars, fighting each other on the campaign compared to my 17 thousand dollars and my opponent currently has half a million dollars to roll out. While they threw money into their campaigns, I put over 10,000 miles on my truck canvassing the 12,489 square miles of the district knocking on doors, talking to business owners, employees, attending various forums and gatherings. I will continue to need your support and do-nations so we can have representation for the rural communities of the district. I will continue to preform my current school board responsibilities and be available to anyone who has any questions or comments. The best way to contact me is through email at- mikegreerassembly2024@gmail.com or 530-864-6644 by text since I'm in and out of cell reception. You can go to mikegreerassembly2024.com to donate and help me cover another 30,000 miles to get out the vote. Thank you for all your hard work and help to be part of an effective change.

Mike Greer
