

Letter: Save abortion rights

November 26, 2023

The movement to force women into giving birth, regardless of possible dire consequences for the mother, has failed yet again in Ohio. Proving once again the majority of this country does not approve of the SCOTUS overturning Roe v Wade. It also serves as a hopeful sign that despite Biden's poor poll numbers and the mind numbing fact the former failed president Trump currently leads Biden in other polls, the country simply won't allow the tyrant dictator Trump another chance to defeat democracy.

Because if Trump gets in again you can be sure he will reward the Evangelical Christians who revere him almost as much as their God, by taking away any & all rights of women's reproductive issues.
