
Letter: Crescent City needs women's clothing stores, not men's hardware stores

November 4, 2020

I have lived in Crescent City for 21 years.

My question is why do we need all these tool stores?

I would like to see some clothing stores come in. I don't think I am the only woman asking this question. Instead of ordering on line or driving eighty miles to shop. To me this is absolutely ridiculous. There are women living in the town and would like to see this happen.
