

Letter: Support for Heather Polen for DN Supervisor

February 8, 2024

Heather has shown a natural interest in Budgets and Financial Statements, and I believe she will bring much needed oversight to the finances held by the Del Norte County Board of Supervisors.

I asked her why she was running for the Board of Supervisors, and she provided me with the following answer: “I am running for office because I believe that our county can do better. I am tired of a political system that lacks common sense and ordinary kindness. I am worried about the lack of true fiscal responsibility and sound, transparent, long term budgetary planning. In my neighborhood (District 5), we face real issues on housing affordability, crime, lack of health care, road maintenance, good jobs and food insecurity. I am worried about the growing poverty among our elderly population. Our county is filled with great hard working people. We are facing difficult long term problems that I believe we can solve if we listen to each other and work together. As a candidate for District 5 County Board of Supervisors, I am eager to serve the hardworking people of our beautiful and resilient community. I have lived here almost my entire life so I recognize the unique opportunities and challenges we face. My commitment is to bring effective, inclusive, and accountable leadership that truly represents the needs of every citizen. Vote for Heather Polen District 5 County Board of Supervisors.”

A Vote for Heather is a vote for Fiscal Responsibility and Transparency. Although I do not live in her District, I have spent some time with her reviewing the latest Financial Statements and she has a thorough understanding of the process. We need that. Please support Heather for District 5.
